TOWN OF GRANBY

MEMORANDUM

DATE: April 30, 2025

TO: The Granby Board of Selectmen
FROM: Mike Walsh, Town Manager
REGARDING: Sewer Use Rates - 2025

A blue ink signature of Mike Walsh, Town Manager.

By way of this memo, please see the attached memo from Lauren Stuck, Collector of Revenue with respect to setting the 2025 Sewer Use Rates.

In order for the rates to be set, the following motion/resolution is needed from the Board of Selectmen.

Proposed Motion/Resolution:

Be it resolved, that the Granby Water Pollution Control Authority (GWPCA) approves setting the 2025-2026 sewer rates for residential users at a minimum of \$257 per unit up to 60,000 gallons per year and for commercial/industrial users at a minimum of \$360 per unit up to 110,000 gallons per year.

For all gallon usage (residential and commercial/industrial) above the minimum, \$0065 per gallon will be charged. For unmetered residential properties, a 50% surcharge will be applied, which is \$385.50 per unit. All commercial properties must have a water or sewer meter, or a use analysis performed by the Town's engineer.

I will be on hand to answer any questions you may have on this item. Thank you.
